Guidelines For Level Placement

Level 1 - This level is intended for children who have never had a swim lesson before. This is a beginner class with the goal of becoming comfortable in the water. The students will blow bubbles, float, and use basic freestyle and backstroke arm movement and kicking techniques. They will jump off of the pool wall and submerge their faces in the water.

Level 2 – This level builds upon the skills learned in level 1. The students will refine their stroke techniques for freestyle and backstroke. They will learn the basics of diving and streamlining their bodies. They will begin to learn dolphin kicks. Overall they will begin to swim properly in the deeper section of the pool.

Level 3 – This level builds upon the skills learned in level 2. The students will be swimming the length of the pool for freestyle and backstroke while using proper breathing technique. They will refine their kicking for both butterfly and breaststroke. They will work on racing starts for freestyle and backstroke.

Level 4 – This level is intended for preparation for our Freedom Dolphins Swim Team. Students will become knowledgeable of all 4 strokes and understand racing starts and finishes. It is our goal to foster a love of swimming in the hopes that they will be encouraged to join our swim team.
